DANIEL SOARES

Software Engineer | C# / .NET

[daniemcristo.ds@gmail.com] | [www.linkedin.com/in/daniels-soares]

PROFESSIONAL SUMMARY

Software Engineer with 5 years of experience developing, maintaining, and evolving software systems using C#/.NET, REST APIs, and relational databases, primarily in financial-sector projects. Technical experience with systems related to investments, banking services, and derivatives, working on feature development, system integrations, data processing, problem investigation and resolution, performance optimization, and legacy application modernization.

PROFESSIONAL EXPERIENCE

.NET Developer | Evertec | Jul 2025 - Present

- Develop and enhance .NET/C# applications used in Listed Derivatives processes, implementing fixes and new features based on business requirements.
- Identified a performance bottleneck caused by repeated database queries and implemented a caching strategy, contributing to fewer SQL Server accesses and reduced processing time.
- Implement and optimize SQL Server queries, views, and stored procedures for financial data processing routines.
- Investigate and resolve application issues through code debugging and data analysis, working with QA to validate fixes.
- Participate in requirements refinement with business analysts, translating needs into technical changes and application enhancements.

Technologies: .NET Framework 4.7, C#, SQL Server, REST APIs, Git, Scrum

.NET Developer | BRQ Solution - Julius Baer | May 2024 - Jun 2025

- Developed REST APIs in .NET Core for position consolidation and data delivery in systems related to investment portfolio management.
- Participated in the modernization of legacy solutions and End-User Computing (EUC) tools, contributing to their replacement with .NET Core applications.
- Developed backend features for integration with an Order Management System (OMS).
- Implemented unit tests for endpoints and services while developing new features.
- Worked with a Backend-for-Frontend (BFF) architecture and gained hands-on exposure to RabbitMQ producers and consumers.

Technologies: .NET Core, C#, REST APIs, SQL Server, RabbitMQ, BFF, unit testing

Software Developer - Internal Project | BRQ Solution | May 2024 - Jun 2025

- Developed the backend of an AI-enabled API for resume and interview analysis, including data modeling and data access.

Technologies: NestJS, TypeScript, OpenAI, Prisma ORM, MySQL, Docker, Angular

.NET Developer | Wipro - Itaú | Jul 2022 - Apr 2024

- Maintained and enhanced a banking system, delivering corrective and evolutionary maintenance and supporting production-related demands.
- Investigated and resolved issues and implemented improvements in .NET MVC and SQL Server applications.

Technologies: .NET, C#, MVC, SQL Server

.NET Developer | TMKT | Sep 2021 - Jul 2022

- Developed and maintained corporate systems, working full-stack with ASP.NET API/MVC and Angular.
- Developed SQL Server queries and stored procedures as part of an agile team using Kanban.

Technologies: C#, ASP.NET API/MVC, Angular, Git, SQL Server

TECHNICAL SKILLS

- Backend: C#, .NET, .NET Core, ASP.NET MVC, ASP.NET Web API, REST APIs
- Data: SQL Server, MySQL, Stored Procedures, data modeling and data access
- Integrations and messaging: RabbitMQ, BFF, system integration
- Quality and engineering: unit testing, debugging, problem investigation and resolution, performance optimization, legacy system modernization
- Tools: Docker, Git
- Frontend: Angular, HTML, CSS, JavaScript

EDUCATION

Postgraduate Specialization in Software Architecture | Anhanguera | 2025-2026

Associate Degree in Systems Analysis and Development | Centro Universitário FAM | 2021-2023

COURSES

- REST APIs with ASP.NET Core (2025) - Next Wave Education
- AWS Cloud Practitioner Essentials (2024) - Ka Solution
- Object-Oriented Programming (2023) - Next Wave Education
